Virtual Platform Feedback

It was very easy to view jobs and also to chat with multiple vendors at the same time.

JOB CANDIDATE

Job Candidates liked:

- Ability to text chat with recruiters
- Ability to upload resume and submit to job postings
- Ability to enter the event one hour early to look around and get familiar with the virtual platform

Recruiters liked:

- Ability to see candidate profiles and filter by experience
- Chat-based feature
- Ability to access resumes and reports

The feature that allows for resume reviewing was very helpful, as I have a quick overview of the visitor's past experience.

RECRUITER

My favorite part is how recruiters can reach out to you directly on the chat, based on your resume and encourage you to apply for open positions.

JOB CANDIDATE

The Chat feature enabled me to connect quickly with a lot of people during event.
